

RESOURCE2SOURCE

procurement and contract management professionals

Origin Integrated Gas (IG) required the services of a specialised procurement consulting firm to undertake category analysis to identify the category structure and develop the Category Plans for the Origin Integrated Gas Materials and Services Supply Chain teams. RESOURCE2SOURCE was engaged to deliver the plans, within a tight timeframe and to the satisfaction of a range of internal stakeholders.

Project name	Category Management Plan Development
Client	Origin IG
Description of Services	Origin IG required the services of a specialised procurement consulting firm to undertake category analysis, identify the category structure and develop the Category Plans for the Origin Integrated Gas Materials and Services Supply Chain teams. The plans were required to provide the Contracts & Procurement objectives for each purchasing category and provide guidance to the category owners on category strategies, cost drivers, market capabilities, cost saving opportunities, etc.
Role of RESOURCE2SOURCE	<p>RESOURCE2SOURCE was engaged to provide experienced procurement personnel who were embedded within the Origin IG team to perform the entirety of the scope, including the development of each of the category management plans.</p> <p>Deliverables included:</p> <ul style="list-style-type: none">• Development of the category structure and a challenge of the inclusions / exclusions for the various categories.• Stakeholder engagement to attain input, feedback and buy in for the plans.• Cost analysis, market analysis and information gathering for each of the categories.• Delivery of eight category management plans within a nominated timeframe.
Period of involvement	2016
Outcome	RESOURCE2SOURCE successfully supported the implementation of the new category management approach, delivering the Category Management Plans within the allocated timeframes and below the allocated budget. As a value add, RESOURCE2SOURCE also developed a framework for the plans, to ensure updates to the document were consistent following implementation.
